18 July 1967

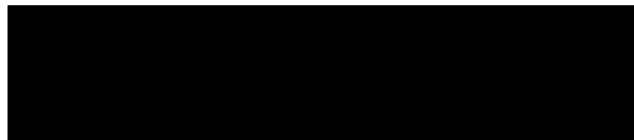

MEMORANDUM FOR: Director, Office of Basic Intelligence
Director, Office of Current Intelligence
Director, Office of Economic Research
Director, Office of Strategic Research

SUBJECT : Proposed OCR Referral System

1. Attached is a memorandum from AD/OCR outlining a proposed referral system. During our discussions of the reorganization of OCR, we agreed that such a system had the potential for providing better service to consumers, for lightening the load on OCR, and for improving communication between analysts in the production offices and OCR.

2. You are requested to review this proposal and consider whether it can serve as a basis for initiating action. I would like any comments you may have by COB, 21 July.
